Niko's World Series

The book series, *Niko's World* tells a story of friendships between four special needs (SEN) children with individual uniqueness. Navigating new situations and social interactions at school is not an easy task. The main character is Niko, a child with Autism. Although he often shows unawareness of daily social situations, his friends do not treat him differently. They help him adjust and feel comfortable. Slowly but surely, they all find ways to adapt to the changing environment.

Bible Characters Series

This series of Bible Characters narrates some characters of the Bible stories, both in the Old Testament and the New Testament. Through reading this series, children are invited to know those characters closer, especially on the virtue of each character. Besides knowing the characters better, the children are invited to do reflection in a simple way: knowing themselves, knowing the good personalities they already possess, and applying them in their lives. Therefore, it would be great if parents take the time to accompany their children in reading these books and afterwards reflect on it together.

About Author

This series are retold by the team of Kanisius' editors. They decided to retell the story and constructed these picture books of some characters in the Bible in an interesting manner that hopefully will attract the children's and teenagers's curiosity in perceiving some characters in the Bible better.

The background of the page is a vibrant, celebratory illustration. At the top, a string of colorful bunting flags hangs across the frame. Below the flags, several large balloons in shades of lime green, red, and blue are visible. The bottom of the page features stylized, layered shapes in blue and orange, suggesting a landscape or a party scene. The overall aesthetic is bright and cheerful.
